PROFILE

Passionate and detail-oriented UI/UX Designer with over 5+ years of experience in creating intuitive and user-centric digital experiences. Skilled in wireframing, prototyping, and interactive design, with expertise in tools like Figma and Adobe XD.

PROFESSIONAL EXPERIENCE

Senior Product Designer

Futurenostics

11/2023 – Present
Islamabad, Pakistan

In my role as Lead UI/UX Designer, I oversee design responsibilities across products and digital experiences, applying a comprehensive skill set with a strong focus on usability, visual quality, and attention to detail.

- Lead the design of complex user interfaces from ideation through final execution, ensuring seamless and intuitive user experiences across digital platforms.
- Create interactive prototypes and gather feedback through user testing to continuously improve designs and validate user flows.
- Collaborate closely with product managers and developers to translate design concepts into functional experiences while maintaining a cohesive user experience.
- Support the development team by providing detailed design specifications, assets, and guidance throughout the implementation process.
- Conduct user research and gather feedback to better understand user needs, behaviors, and preferences.
- Stay up to date with the latest UX trends, tools, and methodologies, and encourage the adoption of modern design practices across products.

Senior UI/UX Designer

58 Studios

05/2020 – 10/2023
Islamabad, Pakistan

- I created interactive prototypes and gathered feedback through user testing to improve designs.
- I collaborated with product managers and developers to seamlessly implement the designed elements and maintain a cohesive user experience.
- I supported the development team by providing design specifications and assets.

UI/UX Designer

Cluster

01/2019 – 05/2020
Islamabad, Pakistan

- Participated in brainstorming sessions and contributed creative ideas for improving user experiences
- Assisted in creating wireframes, prototypes, and mockups for new features and products.
- Created visual assets, including icons, buttons, and other UI elements.
- Participated in design reviews and provided constructive feedback to peers.

PROJECTS

TradeQuest – Fintech Web Design

01/2025 – 04/2025

- Designed a **responsive and intuitive UI** for **TradeQuest Technologies**, a tier-based trading platform for both new and experienced traders.
- Streamlined **trading, learning, and community interaction** through thoughtful interface design.
- Created an interface that empowers users to **trade smarter and faster**.

A memorial website is a dedicated online space created to honor and remember someone who has passed away.

- Includes personal stories, photos, videos, and messages from family and friends.
- Serves as a lasting tribute to the person's life and legacy.

My Role:

- Designed a memorial website with a focus on UI/UX.
- Conducted user research to understand the needs and emotions of the target audience.
- Developed a visually comforting and respectful design, using appropriate color schemes and typography.
- Ensured the website was responsive and accessible on various devices.
- Worked closely with developers to bring the design to life and maintain a seamless user experience.

EDUCATION

Software Engineering

Islamabad, Pakistan

Capital University of Science & Technology

- Specialized in Software Development
